

EARLI 2023 - OUTSTANDING PUBLICATION AWARD

An EARLI Outstanding Publication Award is offered at each EARLI conference to recognise outstanding work in the field of Learning and Instruction.

1. Call for nominations

All members of EARLI are invited to nominate articles published in journals that fulfil the eligibility criteria described below for the Outstanding Publication Award.

Nominations must be received by **15th of May 2023** (midnight CEST).

2. Eligibility

Members nominating a particular article should ensure that the article meets the following criteria:

- The article must be written in English;
- The article must be published in a peer reviewed journal;
- The article's publication date should fall within a max. of two years preceding the EARLI 2023 conference (i.e. published in 2021 – 2023);
- The article must be in the field of Learning and Instruction;
- The corresponding or the first author of the article should be a current member of EARLI;
- The proponent must certify in the nomination that all nominees have been informed and agree with the nomination;
- EARLI EC members are not eligible for the EARLI Outstanding Award during their mandate.

3. Nomination procedure

The nomination should include:

- The nomination form;
- A consent of the nominated authors stating that they have been informed and agree with their nomination;
- A digital copy of the proposed article.

4. Award Scientific Committee

The EC member holding the portfolio of Awards is ex-officio Chair of the Award Scientific Committee and is a non-voting member of the Committee.

The Scientific Committee is comprised of ten independent voting members. The ten voting members are senior EARLI members and current SIG Coordinators. They are proposed by the Chair of the Scientific Committee and approved by the EARLI EC.

The Award Scientific Committee is responsible to rate the quality of all nominated articles according to the criteria and the procedure described below.

5. Award criteria for the Outstanding Publication Award

The Scientific Committee will score the quality of the nominated articles using the following criteria:

- a) Novelty and innovative value of the manuscript
- b) Problem clearly stated
- c) Contextualisation of the work in the appropriate and actual literature
- d) Recent and relevant literature is referenced
- e) Quality of presentation
- f) Research design and analysis
- g) Appropriateness of the interpretation of the results
- h) Implications for educational practice
- i) Discussion and critical view of author
- j) Overall quality

6. Review process

The review process will proceed in two phases:

- In the first phase each nominated article receives two scores by two independent members from the Award Scientific Committee. Mean ratings are calculated. The three articles with the highest scoring are shortlisted and forwarded to the second phase of the review process.
- In the second phase of the review process the articles are rated by three different and independent members of the Award Scientific Committee.
- Those articles that are involved in the second phase are considered as nominated for the EARLI Outstanding Award of the year.

The three nominees involved in the second phase are informed about their nomination by the Chair of the Award Scientific Committee.

7. Winner of the EARLI Outstanding Publication Award

The publication with the highest mean evaluation after the second round review will be crowned the winner of the EARLI Outstanding Publication Award. All shortlisted nominees will be invited to attend the EARLI 2023 Award Ceremony at the EARLI 2023 Conference, where the award winner will be announced.

The articles that receive the second and the third place will be announced as articles receiving “a nomination for the Publication Award” without mentioning their order.

The winner receives an award statue and will be offered a keynote lecture in the next EARLI conference.
