A low-GDP country is determined as a country which has an annual GDP per capita lower than 71% of the GDP of the total European Union (lower than \$ 27 146,21 USD).

The applicant must:

- **Reside and work in a low-GDP country**
- Be an **EARLI member** at the time of application

Preference will be given to presenters of single papers or symposia. Equally, the review score will be used as a determining criterion: preference is given to the highest scoring proposals among the applications.

Please be advised that applications that don't meet the requirements outlined below will not be considered for the award.

Applications for the EARLI 2023 Travel Award are welcomed until the **4th of May 2023 (midnight CEST)** and should consist of a filled-out application form at <http://bit.ly/EARLI2023-AWARD> supported by an uploaded list of publications and scientific achievements from 2013 – 2023 (pdf file, max. 10 MB).
