

JURE 2026 – REVIEW RATIONALE

The JURE International Organising Committee (IOC) has set the following thresholds for accepting a proposal at the JURE 2026 conference:

| Score | Review Decision |
|------------|---|
| 0% - 40% | Rejection for all submission types. |
| 41% - 59% | Posters and Roundtables are accepted from 41% onwards. Single Papers scoring between 41% - 59% are accepted as a Poster. Single Papers are accepted from 60% onwards. |
| 60% - 100% | Acceptance for all submission types. |

Please note that all scores refer to “combined review scores” (average of review scores).

In case of a discrepancy score (25 % or more) between the two initially assigned reviewers, a third reviewer has been called in for proposals scoring on average between 31 % - 69%. Once the three review scores have been collected, the two closest scores will be considered to determine the final outcome, disregarding the third, outlier score.
